General Information

Security

The following guidelines have been prepared to assist EPN Account Holders to comply with security requirements for the department's record information:

1. DMV information **may only** be used for the purpose for which it was approved. It **may not** be combined with any other information.
2. Security measures **must** be in place to prevent unauthorized access to all DMV data.
3. Requester code(s) **must** be protected from unauthorized use and ensure that access to DMV information is limited to requesting information only for the purpose for which the requester code has been authorized by the department.

VIOLATION POINT ASSESSMENT

Violation points are assigned to Vehicle Code sections and any other code section, or city or county ordinance, involving the safe operation of a motor vehicle. Any violation occurring as a pedestrian or a bicyclist has no point assigned. The department may suspend, place on probation, or revoke, the driving privilege of a negligent operator. A Class C negligent operator has 4 or more points in 12 months, 6 in 24 months, or 8 in 36 months (12810.5a VC). Although a Class A or B driver without a special certificate may be allowed 2 additional points, a violation received in a commercial vehicle carries 1 1/2 times the point count normally assessed (12810.5b VC). A minor, under 18 years of age, may receive a 30-day restriction for 2 points in 12 months, or be suspended for 3 points in 12 months (12814.6 VC).

Section 1807 of the California Vehicle Code (CVC) gives DMV the statutory authority to retain driver record information until, in the opinion of the Director, it is no longer necessary. DMV's Driver Record Data Retention and Reporting Policy states that we will retain information only as long as DMV, courts, and law enforcement need it to exercise their responsibilities. In general, 0 and 1 point violations are reportable for 3 years, while 2 point violations are reportable for 7 years, both from violation date. Certain violations committed in commercial vehicles are reportable for 55 years from conviction date. Complete information can be found in Driver License Memo 97-34 "Changes to DL Reportability."

Common Points of Confusion

Pull notices only generate due to negative activity (convictions, accidents, suspensions, etc.), annually, and 30 days before expiration of license, medical, or ID card. They do NOT generate after positive events (new license, renewal, actions terminated, convictions overturned, etc.) To determine if an issue has ended, submit an inquiry to get a current driver record.

Temporary licenses are not shown on pull notices. The most common example is an incomplete renewal – the applicant will be issued a temporary license but it does not appear on any pull notice. Employers have no direct access to temporary license information, which is not shown on the driver record. This is only available from the driver.

Once a license is cancelled, the driver needs to apply for a new license. Cancellation of a license is not terminated. (Record of the cancellation will remain even though a new license (with a later date issued) is shown on the record.)

Vehicle Code 13352.4 (Bold and underline added):

13352.4. (a) Except as provided in subdivision (h), the department shall issue a restricted driver's license to a person whose driver's license was suspended under paragraph (1) of subdivision (a) of Section **13352** or Section **13352.1**, if the person meets all of the following requirements: (1) Submits proof satisfactory to the department of enrollment in, or completion of, a driving-under-the-influence program licensed pursuant to Section 11836 of the Health and Safety **Code**, as described in subdivision (b) of Section 23538. (2) Submits proof of financial responsibility, as defined in Section 16430. (3) Pays all applicable reinstatement or reissue fees and any restriction fee required by the department. (b) The restriction of the driving privilege shall become effective when the department receives all of the documents and fees required under subdivision (a) and shall remain in effect until the final day of the original suspension imposed under paragraph (1) of subdivision (a) of Section **13352** or Section **13352.1**, or until the date all reinstatement requirements described in Section **13352** or Section **13352.1** have been met, whichever date is later, and may include credit for any suspension period served under subdivision (c) of Section 13353.3. (c) **The restriction of the driving privilege shall be limited to the hours necessary for driving to and from the person's place of employment, driving during the course of employment, and driving to and from activities required in the driving-under-the-influence program.** (d) Whenever the driving privilege is restricted under this section, proof of financial responsibility, as defined in Section 16430, shall be maintained for three years. If the person does not maintain that proof of financial responsibility at any time during the restriction, the driving privilege shall be suspended until the proof required under Section 16484 is received by the department. (e) For the purposes of this section, enrollment, participation, and completion of an approved program shall be subsequent to the date of the current violation. Credit may not be given to a program activity completed prior to the date of the current violation. (f) The department shall terminate the restriction issued under this section and shall suspend the privilege to operate a motor **vehicle** pursuant to paragraph (1) of subdivision (a) of Section **13352** or Section **13352.1** immediately upon receipt of notification from the driving-under-the-influence program that the person has failed to comply with the program requirements. The privilege shall remain suspended until the final day of the original suspension imposed under paragraph (1) of subdivision (a) of Section **13352** or Section **13352.1**, or until the date all reinstatement requirements described in Section **13352** or Section **13352.1** have been met, whichever date is later. (g) The holder of a commercial driver's license who was operating a commercial motor **vehicle**, as defined in Section 15210, at the time of a violation that resulted in a suspension or revocation of the person's noncommercial driving privilege under paragraph (1) of subdivision (a) of Section **13352** or Section **13352.1** is not eligible for the restricted driver's license authorized under this section. (h) If, upon conviction, the court has made the determination, as authorized under subdivision (d) of Section 23536 or paragraph (3) of subdivision (a) of Section 23538, to disallow the issuance of a restricted driver's license, the department may not issue a restricted driver's license under this section.
